Computations

$$\text{ON TIME QUOTE} = \frac{\text{Number of quotes sent on time } [\textit{Quotation Sent Date} - \textit{Creation Date} \leq \textit{3days}]}{\text{Number of jobs in all status}} \times 100$$

$$\text{ON TIME DELIVERIES} = \frac{\text{Number of deliveries on time } [\textit{Expected date of delivery or new date of delivery} - \textit{effective date of delivery} = \textit{0days}]}{\text{Number of deliveries in 'Done' status}} \times 100$$

$$\text{TRANSFORMATION RATE} = \frac{\text{Number of jobs in 'Sale Order' and 'Accomplished' status}}{\text{Number of jobs in all status}} \times 100$$
